Latvija

Jolanta Borīte collaborated with Latvian 100-year cultural organizers. This year the Latvian State celebrated the 100-year anniversary, which was an important festival for all citizens. It was a great pleasure for our team to meet this popular personality in Latvia.

She has great experience meeting everyday with popular people. Jolanta shared her experience and told her about her job responsibilities. How important to be relentless in life to achieve your goal. Not to be afraid of the unknown, from the stranger, but rather to encourage themselves and do jobs with a great sense of responsibility.

Jolanta suggested that people need to meet, not to talk about job issues on the phone. The better it can get to know people, partners. Jolanta discussed with students the characteristics of the character of popular people, which inspires him, who helps to overcome the difficulties, how it feels after a welldone job. This conversation was very interesting for all of us.

At the end of the meeting, students gave a keyword associated with what they heard information creativity, responsibility, cooperation, idea, to test oneself, communication, smart women, to be in motion, no time to get bored, experience ©©©
